

DevOps is no longer optional!

Innovate, Disrupt, Transform with speed

Rational User Group

London : DevOps Roundtable & Networking Event

Thursday, November 1st 2018

Responding to change in a dynamic marketplace is nothing new, what has changed however is the value that software brings to the business, underpinning your success moving forward. Whilst change & configuration management and application development tools play a part, it's a cultural shift that's required to effect significant change. Join us to learn how our products are evolving to enable this shift, driving DevOps adoption through continuous integration, deployment automation, test automation - api, functional, & performance - coupled with service virtualization, release management, and collaboration for effective software delivery.

The discussion will cover:

- ✓ Accelerating the delivery pipeline through continuous integration, testing & delivery
- ✓ Embracing cloud computing spanning public, private and hybrid across multiple vendors
- ✓ The evolution of our CCM offerings and their integration with the wider DevOps ecosystem
- ✓ Measuring DevOps maturity using insights with velocity
- ✓ Orchestrating and automating the release of applications with improved visibility and governance.

Agenda 8:30 – 15:30:

- 9:00 Reception and Coffee
- 9:30 Introduction / The man that speaks
- 10:00 Cloud transformation - Not just low cost infrastructure
- 10:30 The challenges of DevOps Adoption
- 11:00 Networking Break
- 11:30 Continuous Release and Deployment
- 12:00 Best Practises for Agile Testing
- 12:30 Collaborative LifeCycle Management
- 13:00 Lunch
- 14:00 ClearCase and ClearQuest Roadmap
- 14:45 DevOps Day 2
- 15:30 Open Discussion / Wrap-Up
- 16:00 Close

Location:

Arrow ECS Office
6 Dowgate Hill, London, EC4R 2SU
